

PYC 2010

Pujari Youth Committee

PYC, the Pujari Youth Committee has been created to encourage kids to actively participate in cultural activities and programs. It is a cultural oasis that encourages unity and friendship through group performances and functions.

The PYC promotes diversity, culture, heritage, and it helps the young generations interact with our society in many ways. Through the many events, PYC ensures that all of its members actively participate in giving back to our community.

PYC not only encourages its members to perform good deeds, but it also helps the young develop leadership skills through the many roles provided in the committee. The youth learn to communicate, work, interact, and cooperate with others.

The youth committee plans to hold fundraisers and charity programs throughout the year to promote the wellbeing of the less fortunate.
